

UNDERSTANDING THE TELLURIUM Q COLOURS

FAMILIES OF SOUND

	ULTRA	DIAMOND	
BLUE			Designed specifically to be very slightly warm and forgiving in systems that have even a hint of edginess. The entry level blues are especially good with home cinema setups especially the Ultra Blue.
BLACK			Extremely natural with very low phase distortion. Fast cable with low capacitance and beautifully clear reproduction. The Tellurium Q signature sound.
SILVER			Similar to the Black range but even faster more detailed with more extended top end compared to nearest priced Black. All this and without any of the harshness that is sometimes associated with silver cables.
